Details of the renewable energy project

Project name:

Project location:

How much is requested from the SMART Fund?

Type(s) of renewable energy installation: (please tick)

Solar	<input type="radio"/>	Biogas	<input type="radio"/>
Photovoltaic	<input type="radio"/>	Biomass	<input type="radio"/>
Hydro	<input type="radio"/>	Geothermal	<input type="radio"/>

Other: (please give details)

Provide a brief summary of your project:

Provide a brief statement demonstrating your capacity to carry out this project i.e. project management experience, knowledge of renewable energy etc:

What are the objectives of the project? i.e. What outcomes do you expect to achieve and how will you evaluate this?

Describe the project location and visibility to the public:

What are the benefits of the project? Who will benefit?

How much CO₂ (carbon dioxide) will be saved annually? (*1kWh (unit) of electricity produced in a power station results in 759g of CO₂ being released*)

Explain how your project has role model status or replication potential or demonstrates innovation:

Is planning permission and/or building control approval required for your project?

- Yes
- No

If yes, when do you expect to receive notification?

Does your project comply with all relevant safety regulations?

Action plan

Indicate key actions required with timescales, including start and finish dates:

Financial information

Total cost of project:

SMART Fund requested:

Please identify all other sources of funding, including private contributions, and whether they are confirmed:

Funding source	Amount (£)	Expected date of confirmation

Provide a brief summary of the project budget:

Will you project go ahead without support from the SMART Fund?

- Yes
- No

Declaration

I hereby certify that the information contained in this application is correct and confirm that this project will be carried out as described in this application
